FE Crown Fund Ratings is a quantitative based ratings system founded on historical performance, volatility and consistency. Funds are ranked against a relative benchmark chosen by FE with the lowest-rated funds carrying a single crown, and the highest awarded five crowns. Funds without a three-year track record are not rated. However, in some cases a rating is applied to funds whose underlying fund carries a three-year track record. FE Crown Ratings are produced solely by FE and its accuracy or completeness cannot be guaranteed.

- ¹ This fund is a hedged share class which aims to provide investors with a return correlated to the base currency performance of the fund, by reducing the effect of exchange rate fluctuations between the base and hedged currency. It is important to note that the hedge is not perfect - it aims to reduce, not eliminate, currency risk.
- ² The manager of this fund may deduct a performance based fee from this fund. This charge is additional to the yearly charge shown. For further information please refer to the fund manager's literature.
- ³ The annual management charge (AMC) quoted may, in some instances contain an additional maintenance fee levied by the fund manager. This fee may be listed in the fund prospectus as separate to the AMC. For the purposes of this bulletin, we have listed the AMC and the maintenance fee collectively.
- ⁴ This fund closed to new business on 31 December 2011. Existing investments in this fund are unaffected.

Past performance is not a guide to future performance. The value of any investment and the income from it can fall as well as rise as a result of market and currency fluctuations and you may not get back the amount originally invested.

For the mirror funds, this also includes the deduction of the additional mirror fund charge of 0.75%. You should note that investing in some of these markets could result in the possibility of large and sudden falls in the price of units. The shortfalls on cancellation or loss on realisation could be considerable. Details of the individual fund performances are available on request. Mirror fund performance may not completely reflect the underlying fund performance due to some management charges incurred. The charges, expenses and taxation of the underlying fund are different and performance may differ. Please refer to the Mirror funds - your guide brochure for details. Details of the risk rating and description and how the risk rating is calculated can also be found in this brochure.

NB Performance data marked with a † is since launch performance.

FE Crown Fund Ratings is a quantitative based ratings system founded on historical performance, volatility and consistency. Funds are ranked against a relative benchmark chosen by FE with the lowest-rated funds carrying a single crown, and the highest awarded five crowns. Funds without a three-year track record are not rated. However, in some cases a rating is applied to funds whose underlying fund carries a three-year track record. FE Crown Ratings are produced solely by FE and its accuracy or completeness cannot be guaranteed.

- ¹ This fund is a hedged share class which aims to provide investors with a return correlated to the base currency performance of the fund, by reducing the effect of exchange rate fluctuations between the base and hedged currency. It is important to note that the hedge is not perfect - it aims to reduce, not eliminate, currency risk.
- ² The manager of this fund may deduct a performance based fee from this fund. This charge is additional to the yearly charge shown. For further information please refer to the fund manager's literature.
- ³ The annual management charge (AMC) quoted may, in some instances contain an additional maintenance fee levied by the fund manager. This fee may be listed in the fund prospectus as separate to the AMC. For the purposes of this bulletin, we have listed the AMC and the maintenance fee collectively.
- ⁴ This fund closed to new business on 31 December 2011. Existing investments in this fund are unaffected.

Past performance is not a guide to future performance. The value of any investment and the income from it can fall as well as rise as a result of market and currency fluctuations and you may not get back the amount originally invested.

Zurich International Life is a business name of Zurich International Life Limited.

Zurich International Life Limited is fully authorised under the Isle of Man Insurance Act 2008 and is regulated by the Isle of Man Financial Services Authority which ensures that the company has sound and professional management and provision has been made to protect planholders.

For life assurance companies authorised in the Isle of Man, the Isle of Man's Life Assurance (Compensation of Policyholders) Regulations 1991, ensure that in the event of a life assurance company being unable to meet its liabilities to its planholders, up to 90% of the liability to the protected planholder will be met.

The protection only applies to the solvency of Zurich International Life Limited and does not extend to protecting the value of the assets held within any unit-linked funds linked to your plan.

Planholders will not have the protection of the UK Financial Services Compensation Scheme.

Zurich International Life is only able to give information on the products of Zurich International Life Limited.

Not for sale to residents or nationals of the United States including any United States federally controlled territory.

The price of units can fall as well as rise, not only due to movements in the value of investments, but also on account of currency movements where investments are not held in the currency of the fund.

You should note that when investing into a mirror fund, the charges, expenses and taxation of the underlying fund are different and performance may differ.

A fund's risk rating number is not static and ratings will be re-assessed every six months and may result in a fund changing its rating number. Please bear this in mind when selecting a fund for investment as its risk levels may alter over time and render it unsuitable for your investment goals. Volatility although a commonly used measure of risk, does not give the full picture of the risks involved and should be used as a guide only. You should always refer to the fund managers published literature (which will be made available by Zurich) to ensure that you fully understand a fund's investment mandate and the full risks involved.

We reserve the right to alter the calculation methodology, risk categories and category descriptions in future.
